

Kylie Moffitt is CanConquer - Exercise Beyond Cancer's founder and is dual qualified as Principal Physiotherapist/Senior Accredited Exercise Physiologist.

Kylie is certified as a PINC Women's & STEEL Men's Cancer Physiotherapist and accredited with exercise oncology as an Exercise Physiologist. She has been practicing for 18 years in the health & medical industry.

CanConquer's Allied Health team is passionate about providing rehab services and education for patients newly diagnosed, undergoing cancer treatment, and those needing re strengthening to return back to their life, when treatment ends.

The recent evidence for exercising during cancer treatment to improve the treatment outcomes and reduce the cancer growth, is overwhelming.

The CanConquer Program is based on this exploding evidence and has 2 locations, one located close to local cancer treatment centres, to give patients the best chance at conquering their cancer.
